

SNJB's Late Sau. Kantabai Bhavarlalji Jain College of Engineering, Chandwad

An Autonomous Institute Affiliated to Savitribai Phule Pune University, Approved by AICTE, Accredited with A+ Grade by NAAC.

1. Programmes Offered

Established in 2004, the Institute currently offers major undergraduate and postgraduate engineering and business programmes. The primary undergraduate programme is the Bachelor of Engineering (B.E.), spanning four years (eight semesters).

- **B.E. Computer Engineering**
- **B.E. Artificial Intelligence and Data Science**
- **B.E. Mechanical Engineering**
- **B.E. Civil Engineering**
- **B.E. Electronics & Telecommunication Engineering**
- **Master of Business Administration (MBA)**
- **Master of Technology (M.Tech)**

2. Attendance Policy

- A student must maintain a minimum attendance of 75 percent in the aggregate of all courses taken together in an academic year.
- The Director may condone attendance shortage up to 5 percent for individual students for valid reasons which must be recorded in writing.
- Under no circumstances shall a student with less than 70 percent aggregate attendance in an academic year be allowed to appear in the semester-end examination.
- Students who are detained due to shortage of attendance shall not be promoted to the next academic year.
- Such students must take re-admission and repeat all courses of the said academic year with the next batch of students.
- **Important:** Students are expected to be present five minutes before the commencement of any scheduled activity including classes, tests, and seminars.

3. Examination and Evaluation

3.1 Semester-End Examinations

As an autonomous institute affiliated with Savitribai Phule Pune University (SPPU), semester-end examinations are conducted under the autonomous pattern. Students must apply for examinations on the prescribed form through the Institute.

3.2 Marking Scheme

Each paper carries a total of 100 marks. Following the engineering autonomous structure, theory subjects are generally divided into an In-Semester (Internal) exam and an End-Semester written examination.

Component	Theory Papers	Practical / Lab Papers
End-Semester Exam	70 marks (70%)	50 marks (50%)
Continuous Evaluation (In-Sem)	30 marks (30%)	50 marks (50%)
Total	100 marks	100 marks

3.3 Pass Percentage

The minimum pass percentage is defined by the university norms (typically 40 percent for undergraduate engineering). Students must clear individual passing heads for both the internal and external examination evaluation components.

4. Grading System

The grading is done on the basis of a 10-point scale Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA). The CGPA is calculated using the formula:

$$CGPA = \frac{\sum_{i=1}^n (C_i \times G_i)}{\sum_{i=1}^n C_i}$$

(Where C_i represents the credits for the i -th course and G_i represents the grade points earned.)

Grade	Performance	Grade Points
O	Outstanding	10
A+	Excellent	9
A	Very Good	8

Grade	Performance	Grade Points
B+	Good	7
B	Above Average	6
C	Average	5
P	Pass	4
F	Fail	0

5. Promotion Rules (ATKT Policy)

- **First Year to Second Year:** Students must earn the minimum required credits as per the Allowed To Keep Terms (ATKT) rules of SPPU to be promoted to the consecutive year.
- **Academic Year Break:** Students who have not been promoted shall automatically be declared to have taken an Academic Year Break. They must reappear in papers of previous semesters in which they have failed to obtain sufficient credits for promotion.

6. Reappear Policy

- A student obtaining less than the passing marks in a paper shall be allowed to reappear in the semester-end examination of that course in subsequent semesters when the course is offered.
- Students must apply to the Controller of Examinations through the Institute to reappear and pay the prescribed re-examination fee.

7. Summer Training and Project Work

- Engineering students are highly encouraged to undergo summer training or internships in the industry after their fourth and sixth semesters.
- Detailed guidelines, schedules, marking schemes, and names of guides shall be provided through academic circulars issued by the Director. Students are required to adhere to these guidelines strictly.
- B.E. students must complete a Minor Project in their third year and a Major Project in their final year (Semester VII and VIII).

8. Award of Degree

A student shall be eligible for the award of degree subject to the following conditions:

- The student must have undergone the full course of studies and completed all project reports and training reports specified in the curriculum within the stipulated time.
- There must be no outstanding dues in the student's name to the Institute or University.
- No disciplinary action should be pending against the student.

9. B.E. Computer Engineering - Sample Course Structure

Semester I

Code	Paper Name	Credits
COMP 101	Engineering Mathematics I	4
COMP 103	Engineering Physics / Chemistry	4
COMP 105	Basic Electrical / Electronics Engineering	3
COMP 107	Programming and Problem Solving	4
COMP 109	Engineering Mechanics	3
COMP 151	Practical I - Programming Lab	2
COMP 153	Practical II - Physics / Chemistry Lab	2
Total		22

10. Working Hours and Facilities

- The Institute operates from Monday to Saturday, from 8:30 AM to 5:30 PM, excluding Sundays and holidays notified by the Institute.
- **Campus Facilities:** Located on a beautiful 30-acre campus in Chandwad, the college is fully equipped with spacious classrooms, technologically advanced auditoriums, separate departmental libraries, a central digital library, and a dedicated Training and Placement cell. Sports facilities include a cricket/football ground,

badminton/basketball courts, and an extensive Wi-Fi network throughout the campus.
